HMH EXTRACTION TEST / FULL FICTIONAL POLICY

Nivara ClearCare

Individual hospital-expense insurance Complete fictional wording and selected schedule

All names, dates, prices, cover rules and deadlines in this document are invented for software testing. This is not issued by a real insurer and does not describe any applicable insurance law.

Clause 01 | Your selected cover and payment option

The fictional insurer is Nivara Demo Assurance. The product is Nivara ClearCare, version DEMO-1.0. This individual policy covers one fictional adult member, DEMO-MEMBER-A, age 35. Cover starts on 1 December 2026 and ends on 30 November 2027. The annual benefit limit is INR 500,000. The selected premium is INR 12,000, payable once each policy year. The monthly payment option is NOT selected. No optional rider is selected.

How to read this policy

The schedule selects the member, dates, benefit limit and payment option. The remaining pages define the benefits, cost sharing, exceptions and procedures. Read applicable clauses together: an exception to one restriction does not automatically remove another restriction.

Contents

Page 2: Definitions and eligibility

Page 3: Covered benefits and limits

Page 4: Exclusions and uncommon situations

Page 5: Waiting periods

Page 6: Premiums, lapse and renewal

Page 7: Claims and customer responsibilities

Page 8: Cancellation, changes and review

All 32 numbered clauses form this fictional policy. There are no external terms or hidden endorsements. The separate reviewer checklist is a testing aid, not part of the policy.

02 / POLICY WORDING

Definitions and eligibility

Clause 02 | Who can be covered

New members must be aged 18 through 60 on the cover start date. This policy covers only the person named in the schedule. A spouse, parent, child or other family member is not automatically covered. A separate policy is required for any additional person.

Clause 03 | What a policy year means

A policy year is the 12-month period shown in the schedule. Every claim payment, including an ambulance or dental payment, uses the same annual benefit limit. Unused benefit does not carry forward. The limit is not automatically restored after a claim.

Clause 04 | Eligible treatment and hospital stay

Eligible treatment means medically necessary treatment of an illness or accidental injury, prescribed by a treating clinician, that is not excluded or subject to an uncompleted waiting period. A hospital admission normally must last at least 24 continuous hours. The day-care exception in clause 09 applies even when an admission is shorter.

Clause 05 | Where cover applies

Treatment is covered only when received within India. Treatment outside India is excluded, even during an emergency. A hospital being outside the network does not by itself remove cover; the reimbursement procedure in clause 27 applies.

Clause 06 | Annual deductible and co-payment

The member pays the first INR 10,000 of otherwise eligible expenses in each policy year as an aggregate deductible. After that deductible is used, the member pays 10 percent of remaining eligible expenses and the insurer pays 90 percent, subject to the remaining annual limit. Benefit sublimits are applied before this calculation. Excluded expenses never use up the deductible.

03 / POLICY WORDING

Covered benefits and limits

Clause 07 | Inpatient hospital treatment

Eligible inpatient room charges, nursing, operation-theatre charges, prescribed medicines used during admission and clinician fees are covered, subject to this policy. The insurer does not promise to pay every item on a hospital bill. Room limits, exclusions, the deductible, co-payment and annual limit still apply.

Clause 08 | Room charge limit

The eligible room charge is capped at INR 3,000 for each covered day. The member pays any room charge above that daily cap. Choosing a more expensive room does not reduce other otherwise eligible treatment charges proportionately; only the room excess is excluded under this clause.

Clause 09 | Day-care exception

Cataract surgery and dialysis are covered day-care procedures even if the hospital stay is shorter than 24 hours, when all other conditions are met. An ordinary outpatient consultation does not become covered merely because it occurs in a hospital. These day-care benefits share the annual limit and remain subject to applicable waiting periods.

Clause 10 | Ambulance sublimit

A road ambulance to a hospital is eligible up to INR 2,000 per covered admission, within the annual limit. There is no separate extra annual ambulance fund. Air ambulance and routine transport home after discharge are not covered. The deductible and co-payment apply to the eligible ambulance amount.

Clause 11 | Accidental dental injury exception

Dental treatment is normally excluded. An exception covers repair of teeth directly injured in an accident occurring during active cover, up to INR 5,000 per policy year. Routine cleaning, tooth decay, dentures unrelated to that accident and cosmetic whitening remain excluded. The exception shares the annual limit and normal cost sharing.

04 / POLICY WORDING

Exclusions and uncommon situations

Clause 12 | Outpatient treatment and medicines

Routine outpatient consultations, health check-ups, vaccinations and medicines taken outside an eligible hospital or covered day-care treatment are excluded. Prescription by a clinician alone does not make an otherwise excluded outpatient expense payable.

Clause 13 | Cosmetic and reconstructive treatment

Treatment performed solely to change appearance is excluded. Reconstructive surgery required to repair an accidental injury during active cover may be eligible when prescribed by the treating clinician. The accident exception does not cover an unrelated cosmetic improvement performed in the same admission.

Clause 14 | Maternity and fertility treatment

Pregnancy-related care, childbirth, fertility treatment and newborn care are excluded under this base policy. The schedule contains no maternity rider. An unrelated covered illness in the insured adult is assessed under the ordinary terms and is not automatically excluded simply because the adult is pregnant.

Clause 15 | High-altitude sports edge case

Injury while participating in recreational climbing above 4,000 metres is excluded. Ordinary travel or residence above that altitude is not excluded by this clause alone. A fall while walking to a hotel is not automatically treated as recreational climbing; the activity actually undertaken must be established.

Clause 16 | Documents and identity misuse

A knowingly fabricated bill or a claim made for someone other than the scheduled member is not payable. An accidental spelling error is not by itself proof of fabrication. The member must be given an opportunity to supply the correct details before a decision based solely on that mismatch.

05 / POLICY WORDING

Waiting periods

Clause 17 | Initial illness waiting period

Illness claims arising during the first 30 days from the original cover start date are excluded. Accidental injuries occurring after cover starts do not have this initial 30-day wait. On uninterrupted renewal, the initial waiting period does not restart.

Clause 18 | Specified treatment waiting period

Planned joint replacement has a 24-month waiting period of continuous cover from the original start date. Joint repair directly required by a new accident during active cover is not subject to this specified-treatment wait. A different exclusion or an applicable longer waiting period can still prevent payment.

Clause 19 | Pre-existing condition waiting period

A condition diagnosed before the original cover start date, or for which treatment was advised during the preceding 24 months, is a pre-existing condition for this fictional policy. Eligible claims related to it have a 36-month continuous-cover wait. Completion of the initial 30-day wait does not remove this separate restriction.

Clause 20 | When waiting periods overlap

If more than one waiting period applies to the same treatment, all applicable periods must be completed; the longest uncompleted period controls eligibility. Waiting does not turn a permanent exclusion into cover. For example, completing 36 months does not add maternity cover to this base policy.

06 / POLICY WORDING

Premiums, lapse and renewal

Clause 21 | Payment choice and annual commitment

The selected payment frequency is annual: INR 12,000 is due at the beginning of the policy year. A monthly instalment option of INR 1,000 exists only if separately selected in the schedule; it is not selected here. Annual payment does not buy permanent or lifetime cover. Another premium is required for a renewed policy year.

Clause 22 | Renewal grace period

The renewal premium has a 15-day grace period after the current policy ends. No claims arising in the gap are covered until payment is received. If payment is received within the grace period, accumulated waiting-period credit is preserved, but gap claims remain excluded. Grace is not free cover.

Clause 23 | Lapse after grace

If renewal payment is not received by the end of the 15-day grace period, the policy lapses. A later application is treated as a new policy and waiting periods restart. A claim for treatment that qualified during the prior active period may still be submitted within the claim deadline; lapse alone does not erase that prior-period claim.

Clause 24 | Renewal price changes

The insurer may propose a different premium for the next policy year and must send the proposed renewal terms at least 30 days before expiry under this invented contract. The current-year premium and benefits are not changed retrospectively by that proposal. Renewal is not a promise that the price will remain INR 12,000 forever.

07 / POLICY WORDING

Claims and customer responsibilities

Clause 25 | Planned hospital admission

For a planned admission, request cashless authorisation at least 48 hours before admission when practicable. Authorisation is a preliminary assessment, not a guarantee that every billed item will be paid. Final payment uses the actual eligible expenses and policy limits. A cashless refusal does not itself prevent an eligible reimbursement claim.

Clause 26 | Emergency notification

For an emergency admission, notify the insurer within 48 hours after admission when reasonably possible. If the member is unconscious or communications are unavailable, notification may be made within 7 days after the obstacle ends, with an explanation. The stated obstacle exception is part of this policy and must not be omitted when explaining the deadline.

Clause 27 | Reimbursement and supporting records

Submit a reimbursement claim within 30 days after discharge, including an itemised bill, discharge summary and proof of payment. Treatment in a non-network hospital can qualify under the same coverage conditions. If documents are incomplete, the insurer requests the missing records; missing records alone do not establish that treatment is excluded. The claim remains pending until sufficient evidence is supplied.

Clause 28 | Worked claim calculation

Assume INR 60,000 of otherwise eligible expenses after benefit sublimits, no prior eligible expense in that policy year, and sufficient annual limit. The deductible is INR 10,000, leaving INR 50,000. The member co-payment is INR 5,000 and the insurer pays INR 45,000. The member pays INR 15,000 plus any excluded expenses. A later claim in that year does not incur a fresh INR 10,000 deductible once it is exhausted.

08 / POLICY WORDING

Cancellation, changes and review

Clause 29 | Initial cancellation window

The member may request cancellation within 15 days after receiving the policy document. If no claim has been paid, the refund is the paid premium less a fixed INR 100 processing charge. If any claim has already been paid, there is no refund under this initial-window clause. The window starts on document receipt, not on the payment date.

Clause 30 | Cancellation after the initial window

After the initial 15-day window, the member may cancel by written request. If no claim has been paid in that policy year, the insurer refunds the premium for whole unused months only, less INR 100. A started month counts as used. If any claim has been paid during that year, no premium refund is due. Cover ends on the effective cancellation date.

Clause 31 | Changes, optional riders and spoken promises

Only the schedule and a written endorsement accepted for this policy change the selected options. A salesperson mentioning a rider does not add it. There is no maternity, outpatient or air-ambulance rider in the present schedule. Any proposed change must specify its price and effective date before it becomes part of this fictional agreement.

Clause 32 | Claim explanation, review and meaning of this document

For a declined or reduced claim, the fictional insurer provides the reason and the relevant clause in writing. The member may request internal review within 30 days after receiving that explanation. Internal review does not guarantee a changed outcome. This entire policy is synthetic test material: no real insurance is sold, no real premium is payable and no real claims service exists.
